

2023 Webpage Program Description

Residential Program

\$2,295.00

5 Days + 6 Nights

Gain a greater appreciation for life. Research studies have revealed a consistent pattern of positive aftereffects in those who report a Near-Death Experience (NDE). Beneficial outcomes are also possible for those who have not had an NDE, but instead, learn about them. During this course, you will explore the nonphysical universe by visiting the same realms encountered by those who have experienced an NDE.

(see the link in the details section below.)

NDE Spectrum offers the opportunity for a wide spectrum of NDE experiences and a new profound understanding of the afterlife. More specifically this program covers:

- The different types of NDEs, elements of an NDE and the Grayson scale for measuring NDE validity.
- How to connect with your energy body and the role it plays in allowing you to experience the same nonphysical realms encountered by those who have had an actual NDE.
- An experiential exploration of the NDE realm along with the beneficial aftereffects that an actual NDE provides; greater sense of oneness in life, less or no fear of dying, heightened intuition.

Learn various techniques to leave your physical body. Using a blend of Monroe Sound Science technology and specific meditation techniques, you will discover how to enter into very particular states of consciousness associated with Near-Death Experiences/Out-of-Body Experiences, come back safely, and return at will.

Know that death isn't the end but, simply a transition. Once you've explored the NDE realm, you'll gain a new perspective of life, death and the afterlife. Through this experiential program, you'll have the potential to feel the same beneficial after-effects that actual near-death survivors report.

Come to know and understand what lies beyond. Explore the tunnel of light reunite with friends and relatives who have transitioned; initiate healing for past and current relationships.

What You Get

In addition to the program materials and audio exercises, you will receive the following benefits.

Semi-Private Rooms

Standard accommodations are double-occupancy rooms.
